BLEACHER REACHER PRO

THE MICRO MINI

**THE GUN
THAT WILL
REVOLUTIONIZE
THE SPORTS
ENTERTAINMENT
INDUSTRY.....**

Are you looking for a new and easy avenue of revenue for your marketing team???

Think of the possibilities shooting T-Shirts, Stress Balls, Confetti, Streamers, Stuffed Toys, and more could generate for your business. It's fun for you, your advertisers and your fans! Our cannon launchers are designed to fit any venue - indoors, outdoors, short to long distances, and launch a variety of promotional items. From the Micro-Mini©, short-range launcher, to the Bleacher-Reacher Pro©, the longest shooting cannon on the market - We can custom design a cannon launcher to fit your needs and budget. We also offer the best warranty in the business - with lifetime service. That's something no competitor offers!

".....We have been manufacturing pneumatic air cannons since 1991"

Our air cannon launchers are all made of machined, hard anodized aluminum. Our launchers are never powder coated or painted as others, nor do we use any PVC or plastic parts. All metal and anodized components means no rust, no corrosion, and tough for those abusive environments. The clear see-through tube is a 3" custom formed lexan that can withstand pressure, provide a straight shot "tunnel" for your promotional items, and provides an important safety feature of seeing what's loaded in the barrel before launching. Our air cannon launchers are offered standard in black, blue, red, gold, and silver, although other custom colors are available upon request. Although our cannons shoot 300 feet+, we still have the lightest weight and most air efficient models on the market.

We have been manufacturing pneumatic air cannons since 1991 and are proud to state that all parts and assembly are still made in the USA.

Each air cannon launcher we sell comes fully assembled in a road case for travel and storage, and includes one 20-ounce CO2 air tank, a fill station, and owner's manual. Each cannon also comes standard with 2 vinyl logos at no additional charge, and custom graphics and designs are available at an additional charge. Be sure to look at our Accessories department and our Promotional Items section to complete your promotional purchase in one easy place.
